PROFESSIONAL EXPERIENCE

Cogency Global Inc. | Fulfillment Specialist | Tallahassee, FL | Oct 2025 - Present

- Process and validate high-volume corporate filings and compliance documentation while maintaining data accuracy.
- Review legal entity information to identify inconsistencies and support operational efficiency across filing workflows.
- Analyze workflow trends, filing discrepancies, and operational data to support reporting and process improvements.

Reston Radiology Consultants | Front Desk Associate | Fairfax, VA | Apr 2025 - Dec 2025

- Managed patient scheduling, healthcare records, and EMR data entry in a fast-paced clinical environment.
- Verified insurance and maintained secure patient records with strong attention to detail.
- Supported daily office operations and improved workflow organization through accurate documentation management.

Florida State University | IT Assistant | Tallahassee, FL | Jun 2024 - Dec 2024

- Supported end users by troubleshooting hardware, software, and workstation issues in a high-volume university IT environment.
- Installed, configured, and maintained desktops, peripherals, and software applications to improve system reliability.
- Documented troubleshooting procedures, ticket resolutions, and technical solutions to improve support efficiency.

Delvepoint/IRB Search | Customer Service & Compliance Analyst | Tallahassee, FL | May 2024 - Nov 2024

- Validated and analyzed structured compliance data for 1,000+ client records while ensuring accuracy.
- Improved workflow efficiency by automating validation and integrity-checking processes.
- Generated operational reports and supported customer and compliance operations through detailed issue resolution.

Heritage Family Practice | Healthcare & Data Operations Specialist | Fairfax, VA | Jun 2020 - May 2024

- Managed and migrated 2,000+ patient records within NextGen EMR systems while ensuring HIPAA compliance.
- Optimized scheduling, insurance verification, and patient workflow operations for 50+ daily patients.
- Reduced documentation errors through data validation, reporting accuracy, and operational process improvements.

Avis/Budget Group | Customer Service Representative | Fairfax, VA & Tallahassee, FL | May 2022 - Sep 2022

- Operated enterprise reservation and customer database systems to support daily operations.
- Maintained accurate customer records and resolved service-related issues efficiently.
- Provided customer and operational support in a fast-paced environment.

Boost Mobile | Mobile Expert | Tallahassee, FL | Jan 2021 - May 2022

- Diagnosed and resolved mobile device hardware and software issues for customers.
- Configured smartphones, applications, and account settings to improve usability and performance.
- Provided technical assistance and customer support for mobile services and products.

PROJECTS & ANALYTICS EXPERIENCE

Business Filing Workflow Analysis | SQL, Excel, Power BI, GitHub

- Analyzed corporate filing workflow datasets to identify processing trends, filing volumes, and operational bottlenecks.
- Built dashboards using Power BI and Excel to visualize workflow performance metrics and filing turnaround times.
- Managed datasets, documentation, and project tracking using GitHub version control.

EHR Data Migration & Reporting Project | Excel, Tableau, SQL

- Organized and analyzed healthcare workflow and appointment datasets to support reporting accuracy and operational visibility.
- Created visual dashboards to track appointment trends, provider activity, and workflow metrics.
- Applied structured data validation and reporting techniques inspired by real-world healthcare operations experience.

CERTIFICATIONS

- IBM Data Analyst Professional Certificate (In Progress)

LEADERSHIP

Women in STEM at FAMU - President (Aug 2021 - May 2025)

Led a 50+ member organization and coordinated technology and professional development initiatives.
